

Erweitertes Logging ab OS5 aktivieren

```
config webfilter profile
  edit "DMZ"
    set options activexfilter javafilter block-invalid-url
    config web
      set safe-search url
    end
    config ftgd-wf
      unset options
      config filters
        edit 1
          set action block
          set category 1
        next
        edit 2
          set action block
          set category 3
        next
      end
    end
    set extended-utm-log enable
  next
end
```
